Redding Maintenance Facility  
1545 Beltline Road  
Redding, CA 96003

February 27, 2008

To Whom It May Concern:

Shufelburger Construction has completed two major projects at Western Area Power Administration's Redding Maintenance Facility located at 1545 Beltline Road in Redding. The first project consisted of re-roofing a 9000 square foot warehouse and 1200 square foot office. It also included replacing one HVAC unit and three evaporative coolers. The second project was a 600 square foot office addition which included upgrades to the electrical system.

Western was extremely pleased with the quality and timeliness of Shufelburger's work. Specifically, their project supervisor, Mr. Forrest Goehring, has an admirable work ethic and continually went out of his way to ensure each project was completed on schedule and within budget.

Western would not hesitate to use Shufelburger Construction for any future projects and highly recommends their work.
